## nextimage Wide-format Scanning + Copying Software

Why just scan? You can copy, print, email, edit, *and* scan with Nextimage multi-function wide format software. It brings all your imaging tasks into one user-friendly interface, creating the perfect link between your scanner, digital storage, existing applications, and your printers.

Intuitive and powerful, Nextimage makes your workflow more productive and more connected than ever before. Let it improve your image today.

# Connect your EDM solution directly to any Contex Scanner

## Key features

- Integrated Multi-Function Software
- Touch-screen compatible - perfect for MFP use
- Scan to multipage PDF or TIF
- Track scans and copies per account
- Simple and Powerful GUI with clear controls
- 64-bit Windows compatible 
- Real-time image adjustments – no re-scanning
- Built-in printer support for HP, Canon, Epson, others
- Batch mode for higher volume jobs
- Check final scan quality with a single click
- Auto file-naming templates for easy indexing
- Scan-to-email sends images to anyone, anywhere
- Undo/Redo buttons and keyboard shortcuts
- ICC and Closed-Loop Color copying
- Auto palette creation for 8-bit indexed scanning

## Connects to your workflow

Copy to your printers, Scan directly into your software, Scan to your email, Scan to other network PCs, even share your scanner with other network users.

## More scanning, less clicking

Nearly every feature or function of Nextimage software has been designed to make the scanner and user more productive – Less searching for the right settings, less adjustment to get the right quality, and less waiting to view results.

## Get a better image

Nextimage software delivers a complete set of tools to ensure image quality for both archiving and printing. Never before has it been so easy to get professional results – with minimal adjustment.

## Easy to setup and use

The Nextimage user interface has been designed for ease of use and customization. One big green button performs scanning, copying, email, and file saving. The settings panel lets you show only the settings you need – hide the ones you don't.
